REPORT.

HEADQUARTERS OF THE POLICE DEPARTMENT,
OFFICE OF THE POLICE COMMISSIONER, 154 BERKELEY STREET,
BOSTON, December 1, 1949.

TO HIS EXCELLENCY PAUL A. DEVER,
Governor of the Commonwealth.

YOUR EXCELLENCY:

In compliance with the provisions of Chapter 291, Acts of 1906, as amended, I have the honor to submit a report of the work of the Boston Police Department for the year ending November 30, 1949.

It is pleasing to report that the force is manned by the full quota authorized by law. Every effort has been exerted to cover the various foot-patrol routes throughout the city at all times, and this practice has reflected favorably in our crime index for the past year. Practical police experience has shown that the degree of protection offered to the public is directly in proportion to the number of officers detailed to foot-patrol duty. Some large cities have forsaken the "old fashioned foot beat" in the belief that this fundamental police service could be performed more economically by radio cruising cars. It has been found that this theory has seriously impaired their police structure as proven by the great increase of serious crimes in these communities. Although this Department is equipped with every device provided for the police by modern science, including our two-way radio cruising cars, these are but mere augmentations to the efforts of the uniformed foot-patrolman who has always been the first line of defense in the unceasing fight against crime and the criminal element. The reputation of the Department for rendering efficient service in the protection of life and property has been maintained.

Construction projects now under consideration will undoubtedly improve the traffic situation in Boston. Traffic regulations are reasonably enforced, and many temporary measures have been made effective. Parking has been restricted on the principal highways leading to and from the

city proper between the hours of 8 A.M. and 10 A.M. on the inbound side, and 4 P.M. and 6 P.M. on the outbound side. However, such measures are of a temporary nature and enforcement requires the services of additional officers. Modern and more suitable highways with a very substantial increase in off-street parking facilities is the only method for permanent traffic relief.

The Department Crime Prevention Bureau has worked untiringly in cooperation with the many social agencies, probation officers, and school attendance officers to eliminate conditions which tend to promote so-called juvenile delinquency. It is encouraging to report that the results have been successful.

The morale of the Department has been greatly enhanced by increased compensation and better working conditions. It is a pleasure to express my appreciation to the personnel for their loyalty and efficiency in carrying out their assignments.

To Your Excellency I extend my sincere thanks for the support you have given the department during the past year.

Respectfully submitted,

THOMAS F. SULLIVAN, *Police Commissioner.*

PRESENTATION OF MEDALS.

The Walter Scott Medal for Valor for 1949 and Department Medals of Honor, as recommended by a Police Board of Merit,

were awarded at the annual ball of the Boston Police Relief Association, held at the Boston Garden, December 5, 1949, as follows:

THE WALTER SCOTT MEDAL FOR VALOR AND A DEPARTMENT
MEDAL OF HONOR TO SERGEANT JOHN F. CULLINAN OF
DIVISION 4.

Sergeant John F. Cullinan of Division 4 is hereby awarded the Walter Scott Medal for Valor and a Department Medal of Honor for distinguished and meritorious service performed on January 24, 1949.

Sergeant Cullinan and several other officers, in answer to a call, entered a house in the South End in search of a dangerous gunman wanted for armed robberies. In a dark hallway the sergeant was suddenly confronted by a man who fired a shot point blank at him without warning. The shot struck the sergeant in the upper right leg causing him to collapse. The gunman fled from the scene but was later trapped by police in an apartment where he had terrorized a mother and her small children. As a result of the bullet wound, it was necessary to amputate Sergeant Cullinan's leg in order to save his life.

DEPARTMENT MEDALS OF HONOR.

Detective Joseph F. Waldron of the Bureau of Criminal Investigation is hereby awarded a Department Medal of Honor for distinguished and meritorious service performed on August 23, 1949.

Detective Waldron, while returning from an assignment, received a radio message that an armed holdup had just been committed by two men who had fled in an automobile. Shortly after, he observed an automobile, answering the radio description, which was speeding through the Roxbury district in heavy traffic. He pursued and finally managed to overtake the car. The operator then attempted to escape on foot but Detective Waldron gave chase and after firing several warning shots succeeded in apprehending him. The other bandit who had left the car in heavy traffic was later arrested.

Detective Philip P. Whaland of Division 7 is hereby awarded a Department Medal of Honor for distinguished and meritorious service performed on May 23, 1949.

Detective Whaland, while at home, responded to the ringing of his door bell and found a young girl bleeding profusely from

several stab wounds. She stated that a young man had viciously attacked and assaulted her with a dirk knife while walking through a sparsely settled area a short distance away. After seeing to her care, Detective Whaland searched for the culprit and finally succeeded in tracking him down and placing him under arrest.

Patrolman Edward F. Lenz of the Hackney Carriage Unit is hereby awarded a Department Medal of Honor for distinguished and meritorious service performed on October 31, 1948.

Patrolman Lenz, while on a day of relief, and in the vicinity of Massachusetts Avenue and St. Botolph Street, heard the screams of a woman coming from a cleansing shop. He proceeded to the scene and found that a man had attempted to hold up a girl employee and made his escape through an alleyway. Patrolman Lenz gave chase in a taxicab and finally succeeded in capturing the criminal.

Patrolman Edward A. Gibbons, Jr., of Division 13 is hereby awarded a Department Medal of Honor for distinguished and meritorious service performed on June 24, 1949.

Patrolman Gibbons, while on motorcycle patrol, observed three men in an automobile bearing stolen registration plates. He also noted that the car answered the description of one wanted in connection with several holdups earlier in the evening. Patrolman Gibbons ordered the men at gunpoint to get out of the car, searched them and found a German automatic pistol in the possession of one. He placed them under arrest, and two were identified as having perpetrated several holdups in Dorchester and Roxbury.

Patrolman Joseph A. Higgins of Division 2 is hereby awarded a Department Medal of Honor for distinguished and meritorious service performed on August 23, 1949.

Patrolman Higgins, while on duty in a radio car, responded to a call that a man had jumped from the Summer Street Bridge into the waters of Fort Point Channel. Upon arrival at the scene, Patrolman Higgins removed his equipment and outer clothing, dove into the water and effected the rescue.

WORK OF THE DEPARTMENT.

ARRESTS.

The total number of arrests, counting each arrest as that of a separate person, was 94,079, as against 92,515 for 1948.

There were 15,448 arrests on warrants and 36,358 without warrants; 42,273 were summoned by the courts.

The number of males arrested was 84,671; of females, 9,408; of foreigners, 4,105; of delinquents, 2,825; of minors, 7,002; of non-residents, 31,239.

The number of persons punished by fines was 33,350, and the assessment of fines imposed by the courts amounted to \$203,105.

The total number of days' attendance at court by officers was 37,161, and the witness fees earned amounted to \$10,016.19.

There were 27,671 persons arrested for drunkenness, an average of 76 per day, as against 28,299 or an average of 78 per day in 1948.

One hundred seventy-four persons were committed to the State Prison; 2,207 to the House of Correction; 68 to the Women's Prison; 91 to the Reformatory Prison, and 2,852 to other institutions, and the total years of imprisonment were 1,304 (1,506 sentences were indefinite).

The value of property taken from prisoners and lodgers was \$130,289.39.

The value of property stolen in the city amounted to \$2,125,887.29 and the value recovered amounted to \$1,564,096.50.

The Commissioner has attempted to find out what percentage of arrests in other cities is of non-residents. This percentage is so small in other cities that statistics are not kept of this class of arrests; therefore, it should be borne in mind in making comparisons of Boston with other cities, either of the cost of policing or of criminal statistics, that 33 per cent of the arrests in Boston is of non-residents, whereas other cities have but a negligible percentage of arrests of non-residents.

For the twelve months ending November 30, 1949, as compared with the same period ending with November 30, 1948, a brief comparison of the number of arrests for major offenses may be of interest and is submitted herewith:

OFFENSES.	YEAR ENDING NOVEMBER 30, 1948.	YEAR ENDING NOVEMBER 30, 1949.
	Arrests.	Arrests.
Aggravated assault	216	244
Auto', operating so as to endanger	473	526

Murder	18	12
Rape (including attempts)	71	74
Robbery (including attempts)	335	251
Totals	33,808	33,461

The balance of the arrests consisted largely of so-called minor offenses, such as traffic violations, violations of city ordinances, gaming and miscellaneous offenses.

UNIFORM CRIME RECORD REPORTING.

This department, during the past year, has continued its cooperation in furnishing returns to the Federal Bureau of Investigation, Washington, D. C., of the following serious offenses:

1. Felonious homicide:
 - (a) Murder and non-negligent manslaughter
 - (b) Manslaughter by negligence
2. Rape
3. Robbery
4. Aggravated assault
5. Burglary — breaking and entering
6. Larceny:
 - (a) \$50 and over in value
 - (b) Under \$50 in value
7. Auto, theft

The following comparative tables show the number of certain offenses reported and cleared for the period December 1, 1948, to November 30, 1949, as against December 1, 1947, to November 30, 1948:

Uniform Crime Record Reporting. Comparative Table.

OFFENSES.	DECEMBER 1, 1948, TO NOVEMBER 30, 1949.		DECEMBER 1, 1947, TO NOVEMBER 30, 1948.

BUREAU OF CRIMINAL INVESTIGATION.

ITS ORGANIZATION AND DUTIES.

The Bureau of Criminal Investigation is the central detective agency of the Department and is composed of several units, namely: Automobile, Ballistics, Chemical Laboratory, Homicide, Lost and Stolen Property, Identification, Missing Persons.

In addition, special squads are assigned to cover the following phases of police work and investigations: banking, express thieves, general investigation, holdups, hotels, narcotics, pawnbrokers, junk shops, second-hand article dealers, pick-pockets, radicals, shoplifters, night motor patrol.

Members of this Bureau investigate felonies committed within the jurisdiction of the City of Boston. They also handle cases of fugitives from justice and conduct hundreds of investigations during the course of a year for various police departments throughout the United States and foreign countries. Further, they cooperate in every possible way with outside police departments in investigation of crime and prosecution of criminals.

AUTOMOBILE UNIT.

This unit investigates all reports of automobiles stolen and is in daily communication with police authorities of the United States and Canada. Many investigations are made in cooperation with the Federal Bureau of Investigation, Post Office Department and immigration authorities of the United States.

The automobile unit index contains records of cars stolen in Boston, cars stolen in other places, cars reported purchased and sold, cars for which owners are wanted, cars used by missing persons and cars whose operators are wanted for various offenses. Many arrests are made by officers of the department and the automobile unit through information obtained from this index.

All applications for Used Car Dealers' Licenses are investigated by officers of this unit. Frequent examinations are made to ascertain if used car dealers are conforming to the conditions of their licenses.

Using mechanical appliances and chemicals, members of this unit during the year identified a number of automobiles

which were recovered or found abandoned on police divisions, restoring them to their owners and have assisted in solving many crimes by means of their positive identifications.

LOST AND STOLEN PROPERTY UNIT.

A description of all articles reported lost, stolen or found in this city is filed in this unit. Many cities and towns throughout the United States forward lists of property stolen in such places. All pawnbrokers and second-hand dealers submit daily reports of all articles pawned or purchased. A comparison of the description of articles reported lost or stolen and those articles which are pawned or purchased by dealers resulted in the recovery of thousand of dollars' worth of stolen property and the arrest of many thieves.

Pawnshops and second-hand shops are inspected daily, for the purposes of identifying property which may have been stolen.

HOMICIDE UNIT.

Officers of this unit investigate all homicide cases and interrogate persons involved in or who have knowledge of crimes of murder, manslaughter, abortion and other violent crimes. They prepare, supervise and present evidence at inquests.

BALLISTICS UNIT.

Personnel consists of members of the Bureau of Criminal Investigation, expert in ballistics, explosives and munitions. All evidence found at the scene of crime where firearms or explosives were used is examined. Suspected weapons are catalogued, fired for test and comparison purposes, and spent bullets and cartridge cases from these weapons are filed. Cases involving ballistic evidence are prepared and presented in the various courts.

All Department firearms, accessories pertaining to the same, and tear gas equipment have been inspected and serviced.

All firearms held as evidence pending disposition by the courts are recorded.

Stolen firearms are traced and whenever possible are returned to the rightful owners. A file is kept on stolen firearms and checks are made against the file at the Lost and Stolen Property Unit and at the files of the Massachusetts Department of Public Safety.

When firearms, property of the United States, are found used in crime or recovered otherwise, such property is returned to the proper military or naval authorities after cases are disposed of by the courts.

This unit works in cooperation with other police departments, Federal agencies, military and naval intelligence units.

EMERGENCY EQUIPMENT ON ALL DIVISIONS.

All police divisions and several units have on hand a supply of emergency equipment.

Harbor Police Division is equipped with line-throwing guns and rifles.

Periodic inspections are made, and equipment replaced whenever necessary.

BIOLOGICAL CHEMIST.

The work carried out in the laboratory is highly varied in its nature, the frequency of any particular type being governed by the circumstances of the cases. A breakdown into types indicates the general scope of the laboratory.

TRAFFIC DIVISION.

The Traffic Division comprises the territory lying within the boundaries of Divisions 1, 2, 3, 4 and 16, and the traffic post at Boston University Bridge, Division 14.

Its primary duties consist of the regulation of vehicular traffic, the enforcement of statutes, rules and regulations which pertain to traffic and the protection of the pedestrian. The Traffic Division also provides a program of safety education through the medium of the M-1 Safety Educational Car.

ACTIVITIES.

According to official figures of the Registry of Motor Vehicles, total registrations as of October 31, 1949, reached an all-time high of 1,109,945, an increase of 75,000 registrations over the preceding year. This increase was reflected proportionately in Boston's traffic volume.

Considerable activity in road-resurfacing projects was experienced, particularly during the months of September and October, yet traffic was handled in such manner that no interruptions were experienced.

In order to effect major repairs to its surface structure, it was necessary to close the Harvard bridge to vehicular traffic during the period beginning at 6 A.M., Monday, September 12, 1949, and ending at 10 P.M., Wednesday, November 9, 1949.

In anticipation of the traffic problems arising from such a prolonged undertaking, this department recommended on July 8, 1949, a pattern of traffic flow which was incorporated in the detour setup in force during the period of bridge reconstruction. This plan proved so effective that many of its features have been continued on a permanent basis.

The magnitude of the problem presented by the closing of the Harvard bridge can best be appreciated when one considers that, by actual count, as many as 41,000 vehicles daily pass over this span. Yet the initial impact of the traffic load placed upon the other bridges and arteries leading to this city was met and overcome by 10 A.M. of the first day of its closing and thereafter traffic flowed in a manner even better than normally experienced in that district.

The handling of this traffic problem met with approval and received the commendation of traffic experts and motoring public alike.

Traffic details were provided in connection with parades, conventions and many special events. Escorts were furnished for the following distinguished visitors to our city:

Pandit Nehru and party from India; the Hon. Alben W. Barkley, Vice President of the United States; the Hon. Winston Churchill, the Hon. Harold Stassen, the Hon. Sean McBride, the Cardinals Stritch and Mooney, the Hon. Maurice J. Tobin, the Hon. K. Harry MacLarin, the Secretary of Commerce; Gen. Jonathan Wainwright, the National Commander of the Veterans of Foreign Wars; Aviator Bill Odum, Actor Eddie Bracken, Actresses Margaret O'Brien and Susan Peters, Shirley May France, the Toni Twins group and officials of the Marine Corps League.

SAFETY EDUCATION.

Through the medium of the M-1 Safety Educational Squad, the Traffic Division provides a program of safety education which is directed principally to the children of our city. Officers assigned to this service provide a daily schedule of safety discourses and demonstrations in the various public, parochial and private schools throughout Boston. During school vacation periods the program is continued in our various playgrounds, beaches and community centers.

The weekly radio safety plays, supervised by the officers of the Safety Educational Squad, which were formerly broadcast by Station WORL, are now presented through the facilities of Radio Station WMEX.

Many student groups from out-of-town were conducted by the squad to the various points of historical interest within our city. Talks and instructions were also furnished to adult industrial and social groups.

The public address system of the Educational Car, as well as the other cars of this division which are similarly equipped, has proved of great value in the elimination of illegal parking and in the handling of parade and shopping crowds.

PARKING.

The Traffic Rules and Regulations, insofar as they pertain to parking, are enforced by the Traffic Division in the down-

town section of the city concurrently with Divisions 1, 2, 3, 4 and 16. During the year ending November 30, 1949, 164,844 notices of parking violations were issued by the Traffic Division. These, together with notices issued directly by the other intown divisions, amounted to a total of approximately 205,860 notices, and represents an all-time high for parking prosecutions in this section of the city.

Of the 164,844 notices issued by the Traffic Division, 140,886 were returned to the Clerks of the Courts and disposed of as non-criminal, and 23,958 were prosecuted by this division as criminal complaints.

PARKING METERS.

There are approximately 5,000 parking meters in service at the present time, 4,000 of which are located in the intown area. During the past year, 37,345 notices of violations pertaining to parking meters were issued by the Traffic Division.

TRAFFIC PROBLEMS.

Our principal traffic problems may be summarized as follows:

1. Lack of adequate modern highways.
2. Lack of adequate off-street parking facilities.
3. Lack of proper bus and truck terminals.
4. Present location and inadequacy of market district.
5. Use of intown ways by trailer-trucks.
6. Use of Atlantic avenue — Commercial street — Causeway street artery by the Union Freight Railroad Company.
7. Absence of regulations governing pedestrian traffic.
8. Routing of parades without regard to traffic problems and the conducting of parades during hours when retail concerns are open for business.

The construction of modern bridge approaches to our city, one of which is now rapidly nearing completion, emphasizes the need of better highways within the city. It also stresses the need of off-street parking areas in order that maximum use may be had of our present street system for the movement of traffic.

During the past year construction was begun on a cage-type parking garage and one of our principal bus companies began

construction of a modern off-street terminal. Both are steps in the right direction and it is hoped that the good work will continue.

It would seem that the only feasible solution of traffic problems created by our present market district would lie in the relocation of the market at some point where more adequate facilities would be available.

The present location of truck terminals in the intown area and the presence of trailer-trucks in our narrow intown streets add considerably to the traffic burden, as does, similarly, the use and occupancy of Atlantic Avenue, Commercial Street and Causeway Street by the Union Freight Railroad Company.

The absence of laws controlling pedestrian traffic in our public ways forces us to depend almost entirely upon the cooperation we receive from the pedestrian, and our very good accident record reflects favorably upon both police and public alike.

Heavy traffic conditions were encountered during the progress of the School Cadets parade, the Columbus Day parade and the Armistice Day parade, all of which were conducted during hours when retail business houses were open. In addition, the first two of these parades followed routes which entirely ignored the existence of vehicular traffic in our city. From a traffic point of view, parades should be confined to a standard route and should not be conducted during hours when retailers are open for business.

HORSES.

On November 30, 1948, there were 15 saddle horses in the service, attached to Division 16.

During the year 3 horses were purchased, 1 horse donated and three horses were retired to the Mass. S.P.C.A. Rest Farm.

At the present time there are 16 horses in service.

BUREAU OF OPERATIONS.

DUTIES.

The Bureau of Operations has control of all communications equipment, consisting of telephone, teletype, radio and telegraph, and through its facilities has directed movement of radio cars, police boats and ambulances.

ACCOMPLISHMENTS.

During the period from December 1, 1948, to November 30, 1949, personnel of the Bureau managed transmission, reception and handling of:

238,415 outgoing telephone messages and 3,865 toll calls made by the department through our switchboard.

Approximately 381,260 emergency telephone messages received and handled at the "Turret" through either "DE 8-1212" or the department intercommunicating system.

Approximately 413,950 telephone messages received through our switchboard, many of which were transferred to the "Turret" for handling.

139,496 teletype messages and 713 telegrams were processed. 7,320 of these teletype messages related to missing persons.

332,641 radio messages sent, including "Sound Scriber" recording of same.

6,327 automobiles were reported lost or stolen. 1,652 were reported stolen in Boston.

Two main radio transmitters (Station "WQIP" Police Headquarters, and "WRAS," Suffolk County Court House); 112 automobile and 4 boat transmitters and receivers; 36 wired broadcast amplifiers and 10 pickup receivers were maintained and kept in repair by members of this Unit. Two-way radio has been installed in 27 combination patrol wagon-ambulances.

A radio repair shop is attached to the Department Automobile Maintenance Shop, where a twenty-four hour daily service is maintained.

CRIME PREVENTION BUREAU.

The Crime Prevention Bureau handles techniques of law enforcement in treatment of juveniles and prevention of juvenile delinquency.

Emphasis has been placed on the value of policewomen in both of these fields.

DUTIES IN GENERAL.

1. Develop a program of crime prevention, intended to eliminate factors that induce criminal tendencies among children.

2. In this program, enlist aid of the public, interested agencies and divisions and units of this department.

3. Teach good citizenship, develop a proper mental attitude of citizens toward law-enforcement agencies, and especially educate the public and the police in the problem of crime prevention and suppression.

4. Determine persons and places which in any way contribute to delinquency of children; investigating and taking necessary action to correct such conditions.

5. Supervise and inspect places of public amusement.

6. Promote welfare of children, the sick, the aged and the needy; locating missing persons.

7. Investigate cases concerning boys and girls and assist in the investigation of cases where women are involved.

SUMMARY OF WORK ACCOMPLISHED.

HACKNEY CARRIAGES.

During the police year, December 1, 1948, to November 30, 1949, there were *2,070 licenses to set-up and use hackney carriages granted, being a decrease of 134 as compared with last year.

There were 473 articles, consisting of umbrellas, coats, handbags, etc., found in carriages during the year, which were turned over to the office of Inspector of Carriages. Two hundred fourteen of these were restored to the owners, and the balance of 259 placed in the custody of the Property Clerk.

The following statement gives details concerning public hackney carriages, as well as licenses to drive the same:

Public Taxicab Stands.

During the police year, December 1, 1948, to November 30, 1949, there were 28 public taxicab stands, with capacity for 73 cabs, established; 21 public taxicab stands, with capacity for 49 cabs, abolished.

There are 470 established public taxicab stands with capacity for 1,240 cabs, at the present time.

Private Hackney Stands.

Chapter 392 of the Acts of 1930, provides for the occupation of private hackney stands (that is, upon private property), by licensed hackney carriage owners.

During the year 29 applications (capacity, 471 carriages) for such private hackney stands were granted; of which 2 stands (capacity, 2 carriages) were abolished and licenses for same canceled.

Sight-Seeing Automobiles.

During the year ending November 30, 1949, there have been issued licenses for 18 sight-seeing automobiles and 13 designated stands for same. One application for license to set-up and use sight-seeing automobile was rejected and one designated stand for sight-seeing automobile was abolished.

There were 46 sight-seeing drivers' licenses granted, which included 2 canceled for non-payment.

Hackney Carriage Violations.

During the past year, 1,463 tags were issued to taxicab drivers for various violations. One hundred seventy-eight penalties were imposed, which included 43 revocations. This system of discipline has continued to result in relieving courts of many minor cases which would tend to congest their dockets.

SPECIAL POLICE.

Special police are appointed to serve without pay from the city, on a written application of any officer or board in charge of a department of the City of Boston, or on the application of any responsible corporation or person, to be liable for the official misconduct of the person appointed.

“New” applicants for appointment as special policemen for the year commencing as of April 1, 1949, were fingerprinted by the department, as has been the custom, and their records, if any, searched for by the Bureau of Criminal Investigation.

During the year ending November 30, 1949, there were 1,072 special police officers appointed; 4 applications for appointment were refused for cause; 3 appointments were canceled for nonpayment of license fee; 15 appointments were canceled for other reasons and 3 appointments were revoked.

Appointments were made on applications received as follows:

From corporations and associations	603
From theaters and other places of amusement	284
From city departments	145
From churches	26
From private institutions	14
Total	<u>1,072</u>

MUSICIANS' LICENSES.

ITINERANT.

During the year 12 applications for itinerant musicians' licenses were received, one of which was disapproved, and one canceled for nonpayment.

PROPERTY CLERK.

The Property Clerk's Office is charged with the care of all police buildings, lost, stolen and abandoned property, money or other property alleged to have been illegally obtained, and all articles and property taken from persons arrested for any cause. In its custody are also placed all seized liquor and gaming implements which come into the possession of the Department.

All orders for supplies, building maintenance, uniforms and equipment are issued by this office.

During the year 75 motor vehicles came into custody of this office, 49 vehicles were returned to legitimate claimants and 5 vehicles were sold at public auction. There are now 32 motor vehicles in custody.

A maintenance shop for the servicing of department automobiles is in operation on a 24-hour basis. During the year, on 5,300 occasions, department cars were repaired and on 2,148 occasions, cars were serviced. Ninety-five department cars and 79 privately-owned cars were towed by the Department wrecker. The Department operates a motorcycle repair shop, where, on 382 occasions, motorcycles were repaired and serviced during the year.

The Supervisor of Automotive Equipment is responsible for the inspection of all department vehicles, all garages in the various divisions, and is required to investigate and report on all accidents involving department vehicles.
